# Yujia Wang

Washington Metropolitan Area (+1)202-365-9392 ywang521@umd.edu https://github.com/vivianw969

## **EDUCATION**

University of Maryland, College Park M.S. in Information Science (GPA 3.9/4.0) 2023.08-2025.05

• Relevant Coursework: Programming for the Information Professional; Database Design; HCI

**Fudan University**, Shanghai, China M.A. in Computational Linguistics 2018.09-2021.06

• Relevant Coursework: Data Structure and Algorithms; Introduction to Natural Language Processing

**Zhejiang University**, Hangzhou, China B.A. in Linguistics (GPA 3.9/4.0 ranks 3rd) 2014.09-2018.06

• Relevant Coursework: Fundamentals of Computer Science; Java Programming; Advanced Mathematics

#### TECHNICAL SKILLS

- Language and Framework: Java | Python | Spring Boot | JavaScript | HTML | CSS | Vue | React | Node.js
- Database Management: SQL | MySQL | Microsoft SQL Server | MongoDB | Redis | FireBase | Pinecone
- Tools: VSCode | Eclipse | GitHub | AWS | Azure | Docker | Figma | Jira | Linux | Tableau | Sublime | Office Suite

## PROFESSIONAL EXPERIENCE

VoiceOut Ltd.

Software Engineer Intern

2024.05-2024.08

- Designed and engineered an iOS application for mental health using **Swift** and **Express.js** in an **Agile** environment, employing **OOD&OOP** concepts for feature development
- Managed data storage solutions by storing over 100 records in **MongoDB** and implementing **Redis** for optimized cache storage, significantly improving application performance and user experience
- Collaborated in UI/UX design processes, contributing to the creation of 20+ high-fidelity prototypes using Figma
- Engaged in unit testing and feedback sessions to refine and enhance the user interface and experience

FYTech Co., ltd

Software Engineer Intern

2023.10-2024.01

- Designed and engineered a web application for event management using Spring Boot and Vue
- Designed a MySQL database to manage 50+ events and 300+ volunteers, using **Redis** as a **messaging queue** for asynchronous data processing and **SQL** for efficient queries
- Implemented **RESTful APIs** and **MyBatis** for seamless data exchange between front-end and back-end systems to deliver dynamic functionalities such as filter, search and rate & review capabilities
- Conducted integration testing, debugging and optimization in collaboration with senior developers, utilizing **Git** for version control, **Maven** for building the modules, **Jenkins** for CI/CD pipelines
- Utilized AWS services for deploying and managing applications, gaining practical knowledge in cloud computing

**Abbott Ltd.** Data Analyst 2019.10-2020.03

- · Participated in the front-end development of social media campaigns using HTML, CSS and JavaScript
- · Managed Order Database and performed data analysis using SQL, Python, and Power BI for two quarters
- Developed and deployed **machine learning models** using **Python** and **Azure ML** to predict campaign performance metrics and to optimize customer targeting

**Bosch Investment Ltd.** 

Front-End Developer Intern

2019.06-2019.10

- Assisted in the design of dynamic and browser-compatible pages for branding campaigns such as the *Annual Sustainability Report* using HTML5, CSS3, jQuery, and JavaScript
- Collaborated with managers, UI/UX designers and other developers to enhance functionality and user experience

#### **PROJECTS**

## **HeadStarter AI Software Engineer Fellowship**

- Completed 6 full-stack projects including Pantry Tracker, AI Customer Support, AI Flashcards & Stripe, AI Rate
  My Professor, etc. using React, Next.js and TypeScript for frontend, Node.js and Python for backend, Firebase
  and Pinecone for database management
- Utilized a vector database Pinecone for efficient information retrieval and OpenAI's language model for generating human-like responses
- Implemented user authentication with Clerk and integrated Stripe for payment processing
- Utilized Git for coding collaboration and Vercel for deployment and CI/CD pipelines
